EXPERIENCE

Northwestern Mutual Dallas - *Client Relations Intern* | Dallas, Texas

January 2020 – August 2020

- Accomplished efficient digital document management by scanning, labeling, and systematically organizing 2000 client documents alphabetically, ensuring easy access and retrieval.
- Ensured data security and maintained 100% customer satisfaction by meticulously shredding confidential information as per compliance standards.
- Contributed to accelerating business growth by 10% through proactive engagement in a fast-paced and dynamic work environment, optimizing operational workflows.

Smoothie King - *Team Member* | Dallas, Texas

August 2021 – September 2021

- Accomplished production of 900 smoothies per month as measured by output tracking in a high-demand, fast-paced environment by efficiently managing preparation and service workflows.
- Achieved 99% customer satisfaction through rigorous quality control and continuous feedback to ensure product freshness.
- Maintained a smooth workflow by diligently checking inventory and tracking the usage data of 22 core ingredients, optimizing stock levels to prevent shortages and excesses.

PROJECTS

Listify | Personal Project

December 2022

- Engineered a secure front-end login system using **Java** for implementing user authentication features, complemented by **HTML** and **CSS** to create an intuitive, visually appealing interface, thereby enhancing the overall user experience throughout the login process.
- Used **React Native** to architect and develop a comprehensive task management system, facilitating efficient tracking of tasks

Rate My Housing | Personal Project

August 2023 - Present •

Employed **React** to structure and manage the application's UI components, ensuring a smooth and responsive user interface for the students to use when looking for housing on campus.

- Utilized **JavaScript**, **HTML**, **CSS**, and the **Firebase** to handle user interactions, process user image and comments within the **React** application, enhancing its functionality and user engagement.
